

# Snapshot September 2016

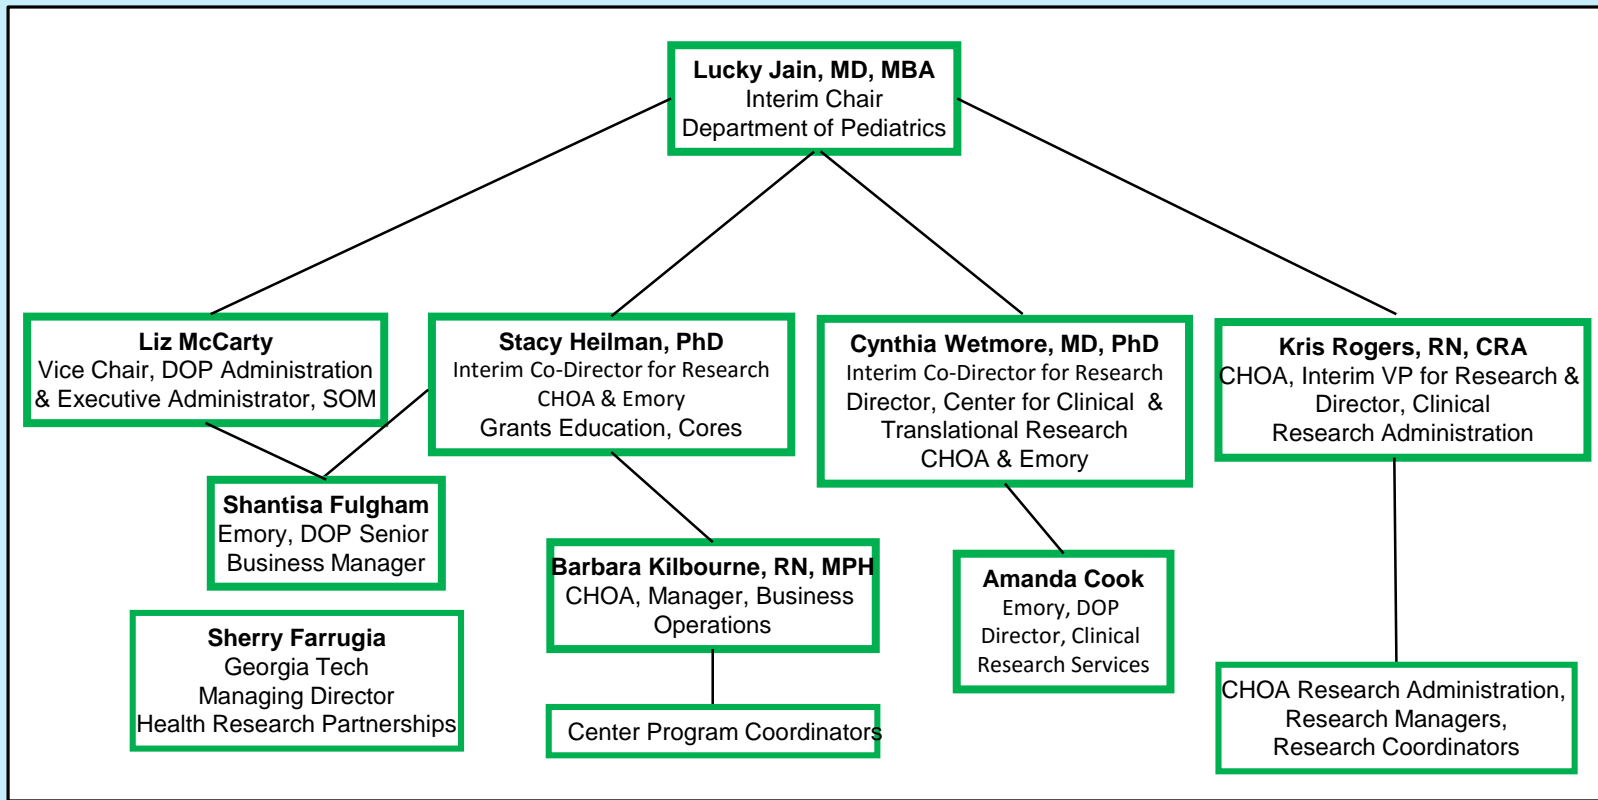

Research Resources

## Research Resources:

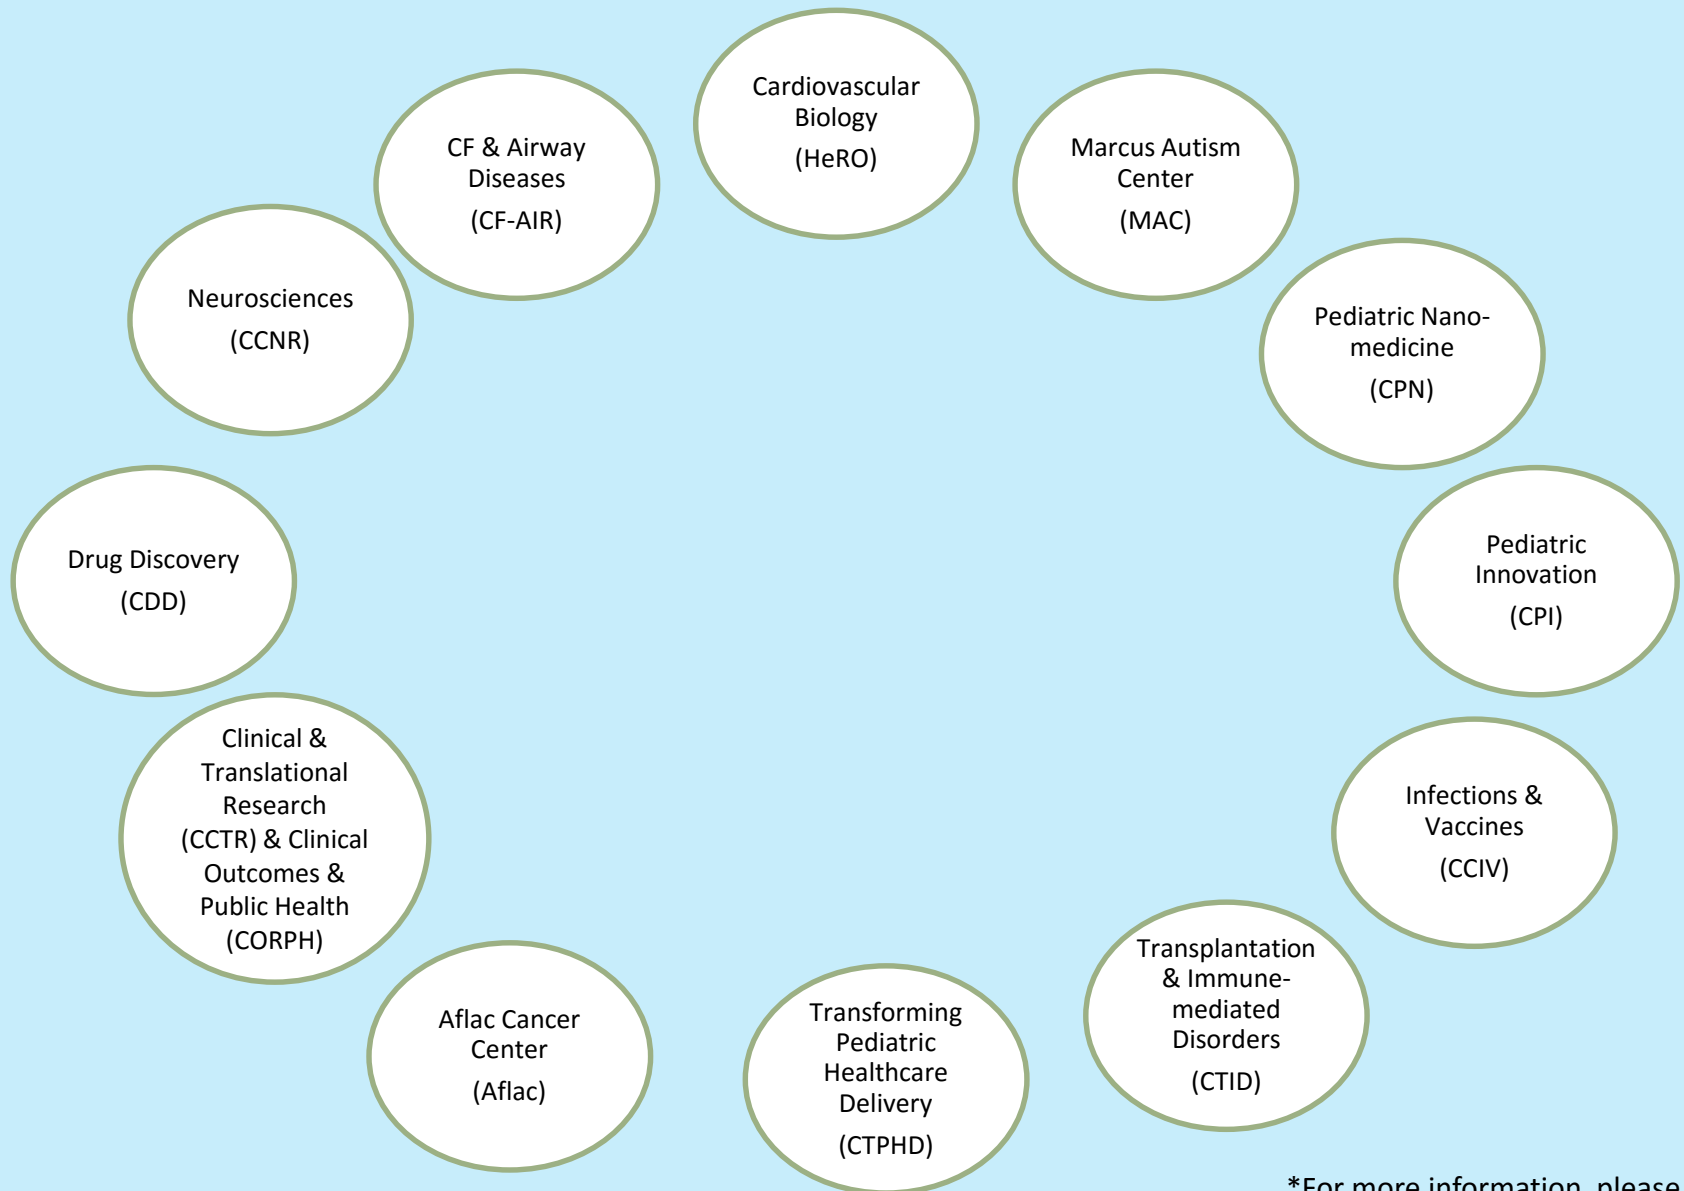

The resources to the right are available to all investigators affiliated with Children's Healthcare of Atlanta (CHOA), including medical staff, Emory Department of Pediatrics (DOP) faculty and staff, and those outside of the DOP and CHOA who are members of our research centers. We encourage involvement of all those interested in research throughout our system, and provide this as a guide to resources along with our research website [www.pedsresearch.org](http://www.pedsresearch.org). Our goals are to build infrastructure and programs that serve a broad community of scientists and clinicians engaged in pediatric research, and provide training in grant writing and grant opportunities that enhance our extramural funding for all child health investigators affiliated with Children's Healthcare of Atlanta. For suggestions and comments on any of the initiatives and resources, please contact our co-directors for research Cynthia Wetmore, MD, PhD [Cynthia.Wetmore@emory.edu](mailto:Cynthia.Wetmore@emory.edu) or Stacy Heilman, PhD [stacy.Heilman@emory.edu](mailto:stacy.Heilman@emory.edu)

# Research Leadership:

# Pediatric Research Alliance Centers\*

\*For more information, please see center web pages at [pedsresearch.org](http://pedsresearch.org)

# Pediatric Research Alliance Center Contacts

## Center Directors:

### **Aflac Cancer and Blood Disorders Center**

**Center Director: Doug Graham, MD, PhD**  
[douglas.graham@choa.org](mailto:douglas.graham@choa.org)  
Program Coordinator: Faith Barron  
[faith.barron@emory.edu](mailto:faith.barron@emory.edu)

### **Children's Heart Research and Outcomes Center**

**Center Director: Mike Davis, PhD**  
[michael.davis@bme.gatech.edu](mailto:michael.davis@bme.gatech.edu)  
Program Coordinator: Kristen Herzegh, BA, MPH  
[kcoshau@emory.edu](mailto:kcoshau@emory.edu)

### **Center for Clinical and Translational Research**

**Center Director: Cynthia Wetmore, MD, PHD**  
[cynthia.wetmore@emory.edu](mailto:cynthia.wetmore@emory.edu)  
Program Coordinator: Kristen Herzegh, BA, MPH  
[kcoshau@emory.edu](mailto:kcoshau@emory.edu)

### **Clinical Outcomes Research and Public Health**

Program Coordinator: Tracy Willoughby  
[twillo2@emory.edu](mailto:twillo2@emory.edu)

### **Center for Cystic Fibrosis & Airways Disease Research**

**Center Director: Nael McCarty, PhD**  
[namccar@emory.edu](mailto:namccar@emory.edu)  
Program Coordinator: Karen Kennedy, PhD  
[kmurra5@emory.edu](mailto:kmurra5@emory.edu)

### **Center for Drug Discovery**

**Center Director: Baek Kim, PhD**  
[Baek.kim@emory.edu](mailto:Baek.kim@emory.edu)  
Program Coordinator: Karen Kennedy, PhD  
[kmurra5@emory.edu](mailto:kmurra5@emory.edu)

### **Center for Childhood Infections and Vaccines**

**Center Director: Marty Moore, PhD**  
[Martin.moore@emory.edu](mailto:Martin.moore@emory.edu)  
Program Coordinator: Karen Kennedy, PhD  
[kmurra5@emory.edu](mailto:kmurra5@emory.edu)

### **Children's Center for Neurosciences Research**

**Center Director: Ton deGrauw, MD, PhD**  
[ton.degrauw@choa.org](mailto:ton.degrauw@choa.org)  
**Research Director: Alex Kuan, MD, PhD**  
[alex.kuan@emory.edu](mailto:alex.kuan@emory.edu)  
Program Coordinator: Tracy Willoughby  
[twillo2@emory.edu](mailto:twillo2@emory.edu)

### **Center for Pediatric Innovation**

**Co-Center Directors: Bob Guldberg, PhD and Kevin Maher, MD**  
[robert.guldberg@me.gatech.edu](mailto:robert.guldberg@me.gatech.edu) and  
[maherk@kidsheart.com](mailto:maherk@kidsheart.com)  
Program Coordinator: Hazel Stevens  
[hazel.stevens@me.gatech.edu](mailto:hazel.stevens@me.gatech.edu)

### **Center for Pediatric Nanomedicine**

**Center Director: MG Finn, PhD**  
[mginfin@gatech.edu](mailto:mginfin@gatech.edu)  
**Co-Director: Tom Barker, PhD**  
[thomas.barker@bme.gatech.edu](mailto:thomas.barker@bme.gatech.edu)  
Program Coordinator: Erin Kirshtein  
[Erin.kirshtein@bme.gatech.edu](mailto:Erin.kirshtein@bme.gatech.edu)

### **Center for Transplantation & Immune-mediated Disorders**

**Center Director: Subra Kugathasan, MD**  
[skugath@emory.edu](mailto:skugath@emory.edu)  
Program Coordinator: Jennifer Villaseñor  
[jkenny@emory.edu](mailto:jkenny@emory.edu)

### **Center for Transforming Pediatric Healthcare Delivery**

**Center Director: Beth Mynatt, PhD**  
[mynatt@cc.gatech.edu](mailto:mynatt@cc.gatech.edu)

### **Marcus Autism Center**

**Center Director: Ami Klin, PhD**  
**Director of Research: Warren Jones, PhD**  
[ami.klin@emory.edu](mailto:ami.klin@emory.edu) or  
[ami.klin@choa.org](mailto:ami.klin@choa.org) and  
[warren.r.jones@emory.edu](mailto:warren.r.jones@emory.edu)  
**Associate Director of Research, Chris Gunter, PhD**  
[Chris.gunter@emory.edu](mailto:Chris.gunter@emory.edu)  
Program Coordinator: Christina Wessels  
[Christina.wessels@choa.org](mailto:Christina.wessels@choa.org)

## Research Center Administration:

### **Lucky Jain, M.D., MBA**

Richard W Blumberg Professor and Interim Chair  
Emory University School of Medicine, Department of  
Pediatrics, Executive Medical Director & Interim Chief  
Academic Officer, Children's Healthcare of Atlanta  
[ljain@emory.edu](mailto:ljain@emory.edu)

### **Cynthia Wetmore, MD, PhD**

Interim Co-Director for Research  
Director, Center for Clinical & Translational Research and  
Director, Clinical Research for Children's & Emory  
Dept of Pediatrics, Emory University  
[Cynthia.wetmore@emory.edu](mailto:Cynthia.wetmore@emory.edu)

### **Stacy S. Heilman, PhD**

Interim Co-Director for Research  
Director of Programs & Grants Advocate, Department of  
Pediatrics, Emory University & Children's Healthcare of  
Atlanta [stacy.heilman@emory.edu](mailto:stacy.heilman@emory.edu)

### **Kris Rogers, RN, CRA**

Interim VP for Research  
Director of Research Administration & Graduate Medical  
Education, Children's Healthcare of Atlanta  
[kristine.rogers@choa.org](mailto:kristine.rogers@choa.org)

### **Liz McCarty**

Vice Chair, DOP Administration & Executive Administrator,  
SOM. [mmccar2@emory.edu](mailto:mmccar2@emory.edu)

### **Shantisa Fulgham**

Senior Business Manager, Department of Pediatrics,  
Emory University [sfulgha@emory.edu](mailto:sfulgha@emory.edu)

### **Barbara W. Kilbourne, RN, MPH**

Manager, Business Operations, Research Strategy  
Leadership, Children's Healthcare of Atlanta  
[barbara.kilbourne@choa.org](mailto:barbara.kilbourne@choa.org)

# Pediatric Research Alliance

## Locations and Contacts:

### Emory Campus/Egleston

#### Emory-Children's Center (E-CC)

2015 Uppergate Drive  
Atlanta, GA 30322

#### Health Sciences Research Building (HSRB)

1760 Haygood Drive, NE  
Atlanta, GA 30322

#### Egleston hospital

1405 Clifton Road  
Atlanta, GA 30322

**Co-Directors for Research** *Cynthia Wetmore, MD, PhD*  
[Cynthia.Wetmore@emory.edu](mailto:Cynthia.Wetmore@emory.edu) and *Stacy Heilman, PhD*  
[stacy.Heilman@emory.edu](mailto:stacy.Heilman@emory.edu)

**Manager, Business Operations:** *Barbara Kilbourne, RN, MPH*  
[barbara.kilbourne@choa.org](mailto:barbara.kilbourne@choa.org)

**Manager, Egleston campus:** *Allison Wellons* [allison.wellons@choa.org](mailto:allison.wellons@choa.org)

#### Centers:

##### Aflac Cancer and Blood Disorders Center

Program Coordinator: *Faith Barron* [faith.barron@emory.edu](mailto:faith.barron@emory.edu)

##### Children's Heart Research and Outcomes Center

Program Coordinator: *Kristen Herzegh, BA, MPH* [kcoshau@emory.edu](mailto:kcoshau@emory.edu)

##### Children's Center for Clinical and Translational Research

Program Coordinator: *Kristen Herzegh, BA, MPH* [kcoshau@emory.edu](mailto:kcoshau@emory.edu)

# Research-sponsored events/meetings:

(This is an overview, for specific dates/events, go to: <http://www.pedsresearch.org/calendar> )

MONDAYS	TUESDAYS	WEDNESDAYS	THURSDAYS	FRIDAYS	VARIOUS DAYS
<p>Research Operations Council (ROC) meetings: occurs weekly at HSRB, E360. Designed for central team to discuss detailed operations and issues. For more information, contact Stacy Heilman <a href="mailto:stacy.Heilman@emory.edu">stacy.Heilman@emory.edu</a></p>		<p>Research Brainstorming Sessions: Help as needed to allow development and exploration of special research topics. For suggested topic nominations, contact <a href="mailto:Stacy.heilman@emory.edu">Stacy.heilman@emory.edu</a></p>		<p>PerCS: 10 AM coffee social every 1<sup>st</sup> and 3<sup>rd</sup> Friday, usually held 3<sup>rd</sup> floor break area, E-CC</p>	<p>Research Advisory Council (RAC) meetings: twice monthly; restricted to RAC membership, contact Cynthia Wetmore for inquiries or suggestions <a href="mailto:Cynthia.Wetmore@emory.edu">Cynthia.Wetmore@emory.edu</a></p>
<p>K club: Monthly discussions/lectures for K award training, other grants training/education. Typically 2<sup>nd</sup> Monday, September to May, Contact Stacy Heilman <a href="mailto:Stacy.heilman@emory.edu">Stacy.heilman@emory.edu</a> for more information. <i>Sponsored by Departments of Pediatrics and Medicine and ACTSI and CFAR</i></p>		<p>Research Grand Rounds: 3<sup>rd</sup> Wednesday of month, Egleston, 7:30 AM</p>		<p>Research Seminars: Fridays (Egleston Classrooms). Contact Barbara Kilbourne for suggestions or needs <a href="mailto:barbara.kilbourne@choa.org">barbara.kilbourne@choa.org</a></p>	<p>Invited speakers through seminar series sponsored by centers; contact Center Directors or Barbara Kilbourne at <a href="mailto:barbara.kilbourne@choa.org">barbara.kilbourne@choa.org</a> if interested in upcoming events. Center Directors are listed on <a href="http://pedsresearch.org">pedsresearch.org</a> website.</p>

# Specialized Research Equipment/Service Cores:

CORE	SCIENTIFIC DIRECTOR	TECHNICAL DIRECTOR/ CONTACT	EQUIPMENT	LOCATION	SERVICES
<a href="#">Animal Physiology Core</a>	Josh Maxwell, PhD <a href="mailto:joshua.t.maxwell@emory.edu">joshua.t.maxwell@emory.edu</a>		<ul style="list-style-type: none"> <li>• Small animal ventilator</li> <li>• Cautery</li> <li>• Temperature monitoring</li> <li>• Anesthesia system</li> <li>• Dissecting microscope</li> <li>• Visualsonics Vevo 2100 High Frequency Ultrasound*</li> </ul>	Emory-Children's Center, 2 <sup>nd</sup> Floor Lab	This core is a centralized resource specializing in survival surgery for rats and mice in addition to assistance with other USDA regulated animals such as rabbits, guinea pigs and piglets. The core director assists all investigators with development of IACUC protocols. Surgical services currently offered by the Core include pulmonary banding in rat and neonatal rabbit, aortic banding, myocardial infarction 5/6th nephrectomy for chronic kidney disease, liver-ischemia reperfusion and ultrasound guided injection ideally suited for targeted drug or cell therapy delivery. The Core also has available for use a Visualsonics Vevo 2100 High Frequency Ultrasound system that allows high resolution small animal ultrasound examinations for noninvasive measurement of in vivo structure and function. The Core Technical Director has been extensively trained in ultrasound techniques with many years' experience thereby increasing reliability and reproducibility of imaging data. Studies can either be conducted in an assisted fashion or investigators can reserve the equipment and utilize their own laboratory personnel.
<a href="#">Biomarkers Core</a>	Lou Ann Brown, PhD <a href="mailto:lou.ann.brown@emory.edu">lou.ann.brown@emory.edu</a> 404-727-5739	Frank Harris <a href="mailto:fharris@emory.edu">fharris@emory.edu</a>	Agilent gas chromatography/mass spectrometer and Waters high performance HPLC with fluorescence detector	Emory-Children's Center, 3 <sup>rd</sup> Floor Lab	This cores analyzes markers of oxidative stress and markers of alcohol exposure. Speak to Scientific Director about other chromatography/mass spec assays available.
<a href="#">Cardiovascular Imaging Core (CIRC)</a>	Ritu Sachdeva, MD <a href="mailto:sachdevar@kidsheart.com">sachdevar@kidsheart.com</a> 404-785-CIRC	Bonnie Wright <a href="mailto:bonnie.wright@choa.org">bonnie.wright@choa.org</a>	<ul style="list-style-type: none"> <li>-Echocardiograms</li> <li>- Flow Doppler</li> <li>-3-D Imaging</li> <li>-Upright Bicycle</li> <li>-VO2 Analysis</li> <li>-Electrocardiogram</li> <li>-Cardiac MRI</li> </ul>	Outpatient Cardiac Services, 2 <sup>nd</sup> Floor, Tower 1	This core provides non-invasive cardiac support for investigators involved in clinical research involving infants, children and adolescents. The CIRC has dedicated space, equipment and staff to provide you with quality cardiovascular imaging data that is collected in a meticulous, systematic, detail-orientated manner. Because of our unique set-up, we are able to utilize state-of-the-art imaging modalities not typically seen in the clinical setting.
<a href="#">Flow Cytometry/Cell Sorting</a>	David Archer <a href="mailto:darcher@emory.edu">darcher@emory.edu</a>	Technical Director for Core: Aaron Rae <a href="mailto:aaron.j.rae@emory.edu">aaron.j.rae@emory.edu</a>  Immunology services are overseen by Bridget Neary <a href="mailto:bridget.e.neary@emory.edu">bridget.e.neary@emory.edu</a>	<ul style="list-style-type: none"> <li>• BD FACS Canto II Flow Cytometer - Lab E-362, HSRB</li> <li>• BD LSRII Flow Cytometer - Lab E-362, HSRB</li> <li>• BD LSRII Flow Cytometer - Lab E-362, HSRB</li> <li>• BD FACS Aria II Cell Sorter - Lab E-362A, HSRB</li> <li>• Imagestream X Mark II - Lab E-362, HSRB</li> <li>• Miltenyi AutoMACS Pro - Whitehead, RM 655</li> <li>• Luminex 100 Analyzer - Lab E-362, HSRB</li> <li>• CTL-ImmunoSpot-S6 Micro Analyzer (ELISPOT Reader) - E-480, HSRB</li> </ul>	Health Sciences Research Building, E362	This core offers access to several state of the art analytical flow cytometers and Luminex as well as high-speed cell sorting. We also offer training as well as expert help to enable our users to improve the quality and scope of their research. The facility provides flow cytometric analyzers and Luminex for the following applications: Immunophenotyping <ul style="list-style-type: none"> <li>• Cell Cycle</li> <li>• Ploidy</li> <li>• Mitochondrial Potential</li> <li>• Apoptosis</li> <li>• PhosFlow</li> <li>• Live/Dead</li> <li>• Cell Proliferation</li> <li>• Oxidative Burst</li> <li>• Cytokine levels in serum and plasma</li> <li>• Gene and protein expression in cells and body fluids</li> </ul>

# Specialized Research Equipment/Service Cores *(continued)*

Monitoring systems ensure 24/7 specimen integrity.</li> <li>• Distribution - Specimens are tracked electronically via the Nautilus LIMS System.</li> </ul> <p>Samples Available for Withdrawal</p> <ul style="list-style-type: none"> <li>• PBMCs, plasma, whole blood, DNA, and urine from pediatric patients with immune-mediated disorders, solid organ transplant recipients and/or patients with end-stage organ disease who are awaiting organ transplant</li> <li>• Blood and urine from living kidney donors and healthy controls with renal diagnoses of rejection, stable function or viremia</li> <li>• Clinical data also can be made available upon request.</li> </ul>

# Partnership Cores

CORE	SCIENTIFIC DIRECTORS	EQUIPMENT	LOCATION	SERVICES
<a href="#">Integrated Cell Imaging Core</a>	Adam Marcus, PhD Director, ICI <a href="mailto:aimarcu@emory.edu">aimarcu@emory.edu</a> Alexa Mattheyses, PhD Associate Director, ICI <a href="mailto:mattheyses@emory.edu">mattheyses@emory.edu</a> Neil Anthony, PhD <a href="mailto:neil.anthony@emory.edu">neil.anthony@emory.edu</a> 404-969-CORE	The rates for the microscopes included in this effort can be found at: <a href="http://ici.emory.edu/document/ICI%20Pediatrics%20Rates.pdf">http://ici.emory.edu/document/ICI%20Pediatrics%20Rates.pdf</a> . Pediatric researchers will benefit from a 40% subsidy when using any of the ICI equipment and technologies. ICI also provides expert consultation, training, and assistance on all technologies. More information on the microscopes and services available, locations, and how to become a user is available at <a href="http://ici.emory.edu">ici.emory.edu</a>	A partnership facilitated by the Emory School of Medicine and includes the Emory+Children's Pediatric Research Center Cellular Imaging Core along with other cellular imaging sites on campus including Winship Cancer Institute, Emory NINDS Neuroscience Core Facilities (ENNCF), and the Department of Physiology	This core provides training and access to advanced cellular imaging systems, including confocal and TIRF microscopy. For more information: <a href="http://www.pedsresearch.org/cores/detail/cell-imaging">http://www.pedsresearch.org/cores/detail/cell-imaging</a>
<a href="#">Genetics/ Genomics Core Resources</a>	<b>The Emory Integrated Genomics Core (EIGC):</b> Michael Zwick, PhD <a href="mailto:mzwick@emory.edu">mzwick@emory.edu</a>	The EIGC is a full-service genomics and computational facility offering Emory researchers the ability to use the latest technologies and methods of analysis in their research. We offer next-generation sequencing, high density microarray services, targeted enrichment, single nucleotide polymorphism (SNP) genotyping, and cutting-edge computational services built around our custom Galaxy server and Emory University's high performance computing and storage infrastructure. Please go to this link to learn more: <a href="#">Emory Integrated Genomics Core</a> .		
	<b>Emory Genetics Laboratory (EGL):</b> Madhuri Hegde, PhD, FACMG <a href="mailto:mhegde@emory.edu">mhegde@emory.edu</a> and Derek Stevens <a href="mailto:derek.stevens@emory.edu">derek.stevens@emory.edu</a>	Emory Genetics Laboratory (EGL) is a "one-stop shop" for genetic testing. Its molecular genetics, biochemical genetics, and cytogenetics laboratories are fully integrated and offer one of the most comprehensive test menus available – more than 900 genetic tests are available for clinicians and researchers. As part of Emory University School of Medicine, EGL remains on the forefront of the latest technologies, including exome sequencing, next generation sequencing, whole genomic and targeted microarrays, and more. ABMG-accredited laboratory directors and NSGC-certified laboratory genetic counselors are available to all ordering clinicians and researchers. For more information, please visit <a href="#">Emory Genetics Laboratory</a> .		

# Funding Opportunities:

Funding Opportunity	Funding Limit	Funding Term	Deadline	Eligibility	Post Award Expectations	Additional Information
<b>Friends</b>	\$25,000	12-18 months	Once annually	<ol style="list-style-type: none"> <li>1. Children's professional staff who do not also have a compensated faculty appointment</li> <li>2. Must be for clinical or outcomes research taking place in Children's facilities</li> </ol>	<ol style="list-style-type: none"> <li>1. Must provide annual and final reports.</li> <li>2. Must be willing to present findings to Friends groups, Children's leadership, etc.</li> </ol>	<a href="http://www.pedsresearch.org/research-tools/research-funding/friends/">http://www.pedsresearch.org/research-tools/research-funding/friends/</a>
<b>Research Center Pilot Grants (including Emory &amp; GA Tech based centers)</b>	\$50,000 (some GA Tech are \$60K)	12 months	Usually mid-winter; Emory-based are due roughly every other year and GA Tech-based offered every year	<ol style="list-style-type: none"> <li>1. Must include a member of the center and/or member of Children's medical staff</li> <li>2. GA Tech-based centers (CPN, CPI and IPaT/CTPHD) must also include member of GA Tech faculty</li> </ol>	<ol style="list-style-type: none"> <li>1. Must provide annual report specifying related publications, grant applications submitted and extramural funding received.</li> <li>2. Must apply for extramural funding within one year of project conclusion date.</li> </ol>	<a href="http://www.pedsresearch.org/research-tools/research-funding/pilots/">http://www.pedsresearch.org/research-tools/research-funding/pilots/</a>

# Funding Opportunities (continued):

Funding Opportunity	Funding Limit	Funding Term	Deadline	Eligibility	Post Award Expectations	Additional Information
Quick Wins	varies	12-24 months	ongoing	<ol style="list-style-type: none"> <li>1. Project proposals must be submitted by teams comprised of individuals from each organization, Children's and Georgia Tech.</li> <li>2. The proposals must address a project that provides an answer to an unmet business or clinical need as identified by a clinician, technologist, or Children's leader.</li> </ol>	The project must be capable of delivering a workable solution (at minimum a validated "prototype") into the hands of a clinician or team within 18 months from the receipt of funds and project start.	<a href="https://pediatriconnect.gtri.gatech.edu/grants">https://pediatriconnect.gtri.gatech.edu/grants</a>

# Additional Resources:

## Research listserv:

Contact [barbara.kilbourne@choa.org](mailto:barbara.kilbourne@choa.org) to be added to this listserv used to disseminate all pediatric research related announcements including seminars, funding opportunities, such as the BiRD (*Bringing in Research Dollars*), and the Weekly PREP (*Pediatric Research Events and Programs*).

# Research Recruitment Update\*:

NAME	PHOTO	CENTER	TITLE	START DATE	RECRUITED FROM	RESEARCH INTERESTS
Chris Porter, MD		Aflac Cancer and Blood Disorders Center	Associate Professor	September 2016	Children's Hospital Colorado	My research interests include methods of gene therapy and drug targets for leukemia.
Robert Schnepf, MD, PhD		Aflac Cancer and Blood Disorders Center (Aflac)	Assistant Professor	September 2016	Division of Oncology Children's Hospital of Philadelphia	Defining the Role of LIN28B Signaling in Neuroblastoma
Curtis Henry, PhD		Aflac Cancer and Blood Disorders Center (Aflac)	Assistant Professor	September 2016	University of Colorado, School of Medicine, Biochemistry and Molecular Genetics	Aging is the most important prognostic factor associated with the development of many cancers including leukemias mediated by the oncogene Bcr-Abl. My research focuses on understanding how aging-associated increases in inflammation reduce hematopoietic progenitor cell fitness and subsequently promote leukemogenesis mediated by Bcr-Abl, Ras, and Myc oncoproteins. Findings from these studies will reveal how the expression of an oncogene can correct or circumvent aging-associated defects in hematopoietic progenitor cells leading to the evolution of cancer.

NAME	PHOTO	CENTER	TITLE	START DATE	RECRUITED FROM	RESEARCH INTERESTS
Lindee Morgan, PhD		Marcus Autism Center (MAC)	Assistant Professor	August 2016	Florida State University, Tallahassee	Community implementation
Michael Siller, PhD		Marcus Autism Center (MAC)	Associate Professor	August 2016	University of California at Los Angeles	My research program investigates the social, emotional, and communicative development of individuals with Autism Spectrum Disorder (ASD) across the lifespan. Before coming to Hunter, my research included a prospective longitudinal study evaluating the development of spoken language in individuals with ASD from preschool to early adulthood (Siller & Sigman, 2002). After joining Hunter in 2007, I published a replication of key findings using an independent sample of preschoolers with ASD followed over 3 years (Siller & Sigman, 2008). Results from both studies reveal that children's rate of language acquisition is independently predicted by baseline measures of (1) children's social comprehension, and (2) responsive parental communication observed during toy play. Based on these early findings, my research has evolved to address three related aims.
Nelson Di Paolo, PhD		Center for Transplantation and Immune-mediated Disorders (CTID)	Assistant Professor Division of Rheumatology, Department of Pediatrics Lowance Center for Human Immunology, Department of Medicine	August 2016	Emory University	Functional activation of IL-1a and other pro-inflammatory cytokines and macrophage function in health and disease.

\*Recruits for the past year

NAME	PHOTO	CENTER	TITLE	START DATE	RECRUITED FROM	RESEARCH INTERESTS
Erin Buckley, PhD		Children's Heart Research and Outcomes Center (HeRO)	Assistant Professor Georgia Tech/Emory Department of Biomedical Engineering Children's Healthcare of Atlanta Research Scholar	March 2016	Massachusetts General Hospital	Our laboratory is currently focused on improving clinical outcomes in pediatric patients at high-risk for brain injury. We study the brain using 2 novel optical techniques known as diffuse correlation spectroscopy (DCS) and frequency domain near-infrared spectroscopy (FDNIRS). When combined, these non-invasive optical techniques can be used to quantify cerebral oxygenation, blood volume, blood flow, and oxygen metabolism. The clinical translation of these technologies holds great potential to elucidate warning signs of brain damage, aid in therapeutic monitoring, and initiate early rehabilitative strategies.
Karen Effinger		Aflac Cancer and Blood Disorders Center(Aflac)	Associate Professor of Pediatrics Emory School of Medicine	December 2015	Stanford University School of Medicine Washington University	I am a pediatric oncologist and specialize in the late effects of cancer treatment. I work in the Survivorship Clinic in the Aflac Cancer and Blood Disorders Center at Children's Healthcare of Atlanta, which sees oncology and bone marrow transplant patients who have completed their treatment. My research focuses on physical and psychosocial functioning after cancer treatment with a particular focus in health risk behaviors, wellness, and physical function in childhood, adolescent, and young adult survivors. Additionally, I am involved in a joint cardio-oncology initiative between the Sibley Heart Center and Survivorship Clinic. Nationally, I serve as the co-chair for the Children's Oncology Group Oral/Dental/GI/Hepatic Long Term Follow-up Guidelines Task Force and am a member of the Musculoskeletal /Functional Outcomes task force. I also am a member of the American Society of Pediatric Hematology/Oncology Early Career Council and Program Committee as well as the American Society for Clinical Oncology. I am an investigator with the Childhood Cancer Survivor Study and received a 2014 Conquer Cancer Foundation of ASCO Young Investigator Award to fund my work.

Research Snapshot September 2016

# Research Recruitment Update\*:

NAME	PHOTO	CENTER	TITLE	START DATE	RECRUITED FROM	RESEARCH INTERESTS
Bernardo A. Mainou, PhD		Center for Childhood Infections and Vaccines (CCIV)	Assistant Professor	September 2015	Lamb Center for Pediatric Research Division of Pediatric Infectious Diseases Vanderbilt University School of Medicine	Dr. Mainou's research is focused on virus and host interactions, having developed expertise with enveloped DNA viruses as well as non-enveloped RNA viruses. As obligate intracellular pathogens, viruses require host cells to replicate, which has provided a strong platform to develop a series of assays to study cellular and viral processes. Dr. Mainou's research is centered on using knowledge from virus and cellular interactions to drive the development of viral therapeutics.
Sookyong Koh, MD, PhD		Children's Center for Neurosciences Research (CCNR)	Associate Professor	September 2015	Epilepsy Center, Ann & Robert H. Lurie Children's Hospital of Chicago	Dr. Koh is a pediatric neurologist and epileptologist. Her research interest is in inflammation of the central nervous system in relation to epilepsy, which she pursues currently in laboratory based animal models. In addition, Dr. Koh is interested in the clinical science of early-life onset seizure disorders and new onset seizures in general..
