Announcements & News

CF-related Cores

Do you need help with your CF-related researcher? Check out the resources available through our numerous cores in the [Spring 2018 Cystic Fibrosis Research Cores newsletter](#).

Do you have something to brag about?

Recent paper, new grant, exciting award, new student, defending a thesis/dissertation? Tell [Karen Kennedy](#) and it might be highlighted in an upcoming newsletter or news roundup or on the website. We are always looking for ways to brag on the exciting things happening in our center. And we need YOU to keep us in the know!

CF-AIR Newsletter: call to trainees

The next newsletter will feature trainees and we need your help! If you are a trainee, we want to highlight you: by March 30 send [Karen Kennedy](#) your name, your mentor(s), institution, project title.

First Annual Greater Atlanta Chemical Biology Symposium

April 21, 2018, Emory University, CF-AIR center member Dr. Bill Wuest is hosting this free symposium. Trainees are especially encouraged to submit posters.

[Full details and registration here.](#)

Spring 2018 IEN Soft Lithography for Microfluidics Short Course

April 26 & 27, 2018, Marcus Nanotechnology Building, Georgia Tech. This 2 day intensive short course will be structured to assume no prior knowledge of the technologies by the participants. The goal for this course is to impart a basic understanding of soft lithography for microfluidic applications as practiced in academia and industry.

[Full details and registration here.](#)

Applied Bioinformatics Course

July 7-12, 2018, cosponsored by the Dartmouth CF RDP and MDI Biological Laboratory. Questions can be sent to Bruce Stanton (bas@dartmouth.edu). An introductory course designed to prepare advanced graduate students, post-doctoral trainees, and researchers at all levels to incorporate bioinformatics into their research. Hands-on experience is provided in bioinformatic data analysis of biomedical data such as human and mouse gene expression, and microbiome data.
