

FEBRUARY 2019 ROUND UP

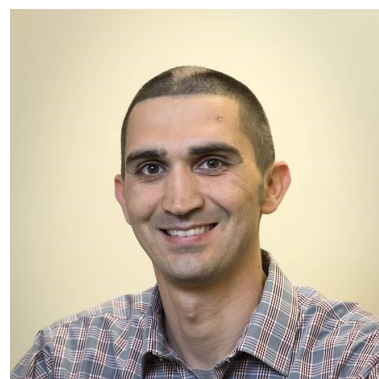

The Diggle lab has a new paper in mBio: Competition in Biofilms between Cystic Fibrosis Isolates of *Pseudomonas aeruginosa* Is Shaped by R-Pyocins. Learn more [here](#).

AMERICAN
SOCIETY FOR
MICROBIOLOGY

PUBLICATION

Congratulations to Bill Wuest, recently named a 2019-2020 AAAS Leshner Public Engagement Fellow. Learn more [here](#).

AWARD

The CF@LANTA team is proud to have submitted an application to renew our CFF Research Development Program grant. This is building on the success of the first 4 years of the grant. Look for announcements in the coming months about the details of the grant.

GRANT

Over the course of preparing the RDP Renewal Application, these exciting numbers were revealed:

CF-related funding for the prior year:

NIH: \$5.6 M

CFF: \$2.6 M

Industry: \$0.6 M

Other: \$2.6 M

Total: \$11.4 M

Congrats to all of you who have earned this incredible amount of funding, and we look forward to seeing the fruits of this work in the coming years!
