

# OCTOBER 2020

## ROUND UP

### 10 YEAR UPDATE

We had the immense pleasure to share all the hard work we've done over the last decade of CF@LANTA, and look forward to the future. To view our webinar, originally aired on Oct 14, 2020, please go to [www.cfatl.org/videos](http://www.cfatl.org/videos)

### CFATL.ORG

Did you know CF@LANTA has a new website? Check out [www.cfatl.org](http://www.cfatl.org) for researcher resources, interviews and research vignettes with key faculty, upcoming events, and a special message from Doug Hertz, President and CEO of United Distributors.

### GEORGIA CF CORE CENTER SERVICES

The Georgia CF Core Center grant focuses on non-pulmonary aspects of CF and how these impact pulmonary aspects of disease.

This grant includes three research Cores:

1. **Diabetes, GI/Liver, and Nutrition Core**
2. **Lifestyles & Behavior Core**
3. **Clinical Research and Informatics Core**

Interested? Check out our REDCap Survey at [www.cfatl.org/for-researchers](http://www.cfatl.org/for-researchers)

### NORTH AMERICAN CYSTIC FIBROSIS CONFERENCE

Despite being virtual this year, the 2020 North American Cystic Fibrosis Conference (NACFC) in October had great representation from the CF-AIR Center! Thank you to everyone who attended.

## NEW GRANT AWARDS

New NIH Grant to **Dr. Steve Diggle**, Georgia Tech. Project title: "Understanding in vivo antibiotic resistance in diverse *Pseudomonas aeruginosa* populations."

New NSF grant to **Dr. Peter Yunker**, Georgia Tech, with Co-PIs **Dr. Brian Hammer** and **Dr. Steve Diggle**. Project title: "Material consequences of distinct interbacterial modes of aggression in bacterial biofilms."

New NIH Grant to **Dr. Joshua Chandler**, Emory. Project title: "Neutrophil Hyperexocytosis And Hypochlorous Acid Exposure in Early Cystic Fibrosis Lung Disease."

If you have anything you would like highlighted in the CF-AIR Monthly Round Up, please reach out to Lilly Meier ([lilly.meier@emory.edu](mailto:lilly.meier@emory.edu))
