PRISE 2022 Cohort, Year 1 – Curriculum Calendar

Prior to the January Session, you will have an intake session with PRISE Directors.

If you have a research elective rotation during your first PRISE year, you should complete the [Writing in the Sciences](#) course from Stanford (available anytime via Coursera) during that time. Be sure to submit verification of course completion to PRISE directors. Please coordinate with PRISE Program Manager, Megan Vallowe, prior to completing this course to ensure you understand the PRISE program requirement.

Please note the dates in which residents are directed to submit/upload documents to the PRISE Residents Team. All submissions will have clear directions/requirements in the Assignments section of the Team.

January 12, 2022 | 4:30pm – 6:30pm

Orientation: Getting to Know PRISE Residents

Asking Good Research Questions

February 9, 2022 | 4:30pm – 6:30pm

Research Project Design

Getting Started: Conducting an Efficient Literature Review

March 9, 2022 | 4:30pm – 6:30pm

Mentor/Mentee Relationships

Career Road Map Panel Discussion

April 1, 2022

Submit Project Proposals to PRISE Residents Team

PRISE+ Residents ONLY: Submit IRP/ARP applications to General Residency Program

April 13, 2022 | 4:30pm – 6:30pm

Introduction to Project Tracking (with Mentors)

Introduction to Career Development Plans (with Mentors)

Small Group Work and Discussions about Alignment

Note: Residents will be required to submit their completed Individual Development Plans to PRISE Residents Team prior to the July Check-Ins

May 11, 2022 | 4:30pm – 6:30pm

Practice presentations for Resident Research Day and/or Work-In-Progress Presentations from advanced PRISE Residents

Prior to practice session, residents participating in Resident Research Day should upload their visual aids/presentation scripts to PRISE Residents Team

June 8, 2022 | 4:30pm – 6:30pm

Writing Scientific Manuscripts

Writing Case Reports

July 2022 | Exact Dates TBD

Individual Check-In Appointments

Note: Prior to Check-In, residents must submit completed Individual Development Plans that they began in the April session. Submit to PRISE Residents Team. The PRISE Program Manager will contact you in April to arrange these appointments

August 10, 2022 | 4:30pm – 6:30pm

Writing Abstracts

Work-In-Progress Presentations from advanced PRISE Residents

September 7, 2022 | 4:30pm – 6:30pm

Social Media

Poster & Oral Presentations

October 12, 2022 | 4:30pm – 6:30pm

Grantsmanship 101

Supporting Documents Lightning Rounds

Budgets

Human Subjects Protections

Biostatistics Consult

November 9, 2022 | 4:30pm – 6:30pm

Work-In-Progress Presentations from advanced PRISE Residents

Mid-Year Group Check-In (with Mentors)

Residents should update their Individual Development Plans after this meeting and submit updated IDPs to the PRISE Residents Team before the January.

December 14, 2022 | 4:30pm – 6:30pm

Creating a CV

Life After Residency

Work-In-Progress Presentations from advanced PRISE Residents

PRISE Inaugural Cohort PGY-2 Residents – Curriculum Calendar

As the inaugural PRISE class, your curriculum requirements are revised to account for the continuing development of the program.

Everyone in the inaugural PRISE cohort who, in January 2022, are in their PGY-2 of Residency should complete the [Writing in the Sciences](#) course from Stanford (available anytime via Coursera). We recommend this occur during your research elective if you have not yet taken it. Be sure to submit verification of course completion to PRISE Co-Directors and Program Manager. Please coordinate with PRISE Program Manager, Megan Vallowe, prior to completing this course to ensure you understand the PRISE program requirement.

PRISE+ Residents ONLY: Complete an Office of Postdoctoral Education [Grants Toolkit](#) on either “Anatomy of a Grant” or “F23 Bootcamp” (availability changes, check periodically).

Please note the dates in which residents are directed to submit/upload documents to the PRISE Residents Team. All submissions will have clear directions/requirements in the Assignments section of the Team.

January 12, 2022 | 4:30pm – 5:30pm

Orientation: Getting to Know PRISE Residents

February 2022 | Date and Time TBD

Funding Application Workshop

This workshop is a single 2-hour meeting that requires residents to bring drafts of portions of a funding opportunity application, which may include the Buchter Award.

Drafts should be submitted to the PRISE Residents Team at least 24 hours prior to the session. All drafts should be in .doc or .docx file formats.

March 2022

1-on-1 Assistance with the Buchter Award Application

If you have not yet applied to the Buchter Award, you should plan to do so this year.

Your 1-on-1 assistance may occur with your research mentor or PRISE Directors. If you plan to apply to a different award, you may substitute 1-on-1 assistance with the Buchter Award for another award process.

April 1, 2022

Submit to Buchter Resident Research Award

Submit to participate in Resident Research Day

Presenting an oral or poster presentation at Resident Research Day can count as one of the 2 required presentations for the PRISE program.

May 11, 2022 | 4:30pm – 6:30pm

Practice presentations for Resident Research Day and/or Work-In-Progress Presentations from advanced PRISE Residents

Prior to practice session, residents participating in Resident Research Day should upload their visual aids/presentation scripts to PRISE Residents Team

June 2022

Participate in Resident Research Day

July 2022 | Exact Dates TBD

Individual Check-In Appointments

Prior to Check-In, residents must submit a revised Individual Development Plan to the PRISE Residents Team. The PRISE Program Manager will contact you in April to arrange these appointments

August 10, 2022 | 5:30pm – 6:30pm

Work-In-Progress Presentations from advanced PRISE Residents

~3 Inaugural Cohort Residents will present their current research work-in-progress. These presentations should be approximately 15 minutes and are informal in nature. A Q&A will follow each presentation. At least 24 hours prior to your WIP presentation, you should submit any visual aids/scripts to the PRISE Residents Team.

September 2022

OPEN/OPTIONAL ACTIVITIES

October 2022

OPEN/OPTIONAL ACTIVITIES

November 9, 2022 | 4:30pm – 6:30pm

Work-In-Progress Presentations from advanced PRISE Residents

~3 Inaugural Cohort Residents will present their current research work-in-progress. These presentations should be approximately 15 minutes and are informal in nature. A Q&A will follow each presentation. At least 24 hours prior to your WIP presentation, you should submit any visual aids/scripts to the PRISE Residents Team.

Mid-Year Group Check-In (with Mentors)

Residents should update their Individual Development Plans after this meeting and submit updated IDPs to the PRISE Residents Team before the January.

Participate in Resident Research Day

Optional Activities for the PRISE Program

Residents from the inaugural PRISE cohort who are in their 2nd Year of Residency in January 2022, should complete at minimum **2 items** on this list by the time they finish residency. Residents from the inaugural PRISE cohort who are in their 3rd year of Residency in January 2022, need only complete **1 item** from this list.

Additional activities/items may count towards this requirement pending PRISE Co-Director approval. The following list is **not** comprehensive.

- Complete: [Design and Interpretation of Clinical Trials](#) from Johns Hopkins University (available anytime from Coursera)
- Complete: Responsible Conduct of Research from Emory University School of Medicine's [Office of Postdoctoral Education](#) (occurs in Spring, 4 sessions, 2 hours each, usually spread across Jan., Feb., and March)
- Complete: [Quality at the Data Level](#) course from the Georgia Institute for Translational Research (available anytime)
- Complete: [Quality by Design at the Clinical Level](#) course from the Georgia Institute for Translational Research (available anytime)
- Complete: [Diversity in Clinical Trials](#) course from the Georgia Institute for Translational Research (available anytime)
- Attend a [Research Survival Workshop](#) (topic and availability change, check periodically)
- Participate in a [Clinical Research Bootcamp](#) (usually occurs in April, approx. 1 full day. One course is offered per year, rotating over a 3-year period)
- Participate in a [SOM Career Development for Faculty](#) (including FAALI Series) event (dependent on topic, check periodically)
- Participate in an Office of Postdoctoral Education [Grants Toolkit](#) event/activity (topic and availability change, check periodically)
- Attend a Department of Pediatrics [FIRsT session](#) (dependent on topic, check periodically)
- Attend a [K-Club](#) session (dependent on topic, check periodically)
