

***Opportunities to Consider the  
Environment in Human Health Research:  
The HERCULES Exposome Research Center***

*Presentations by:*

Gary Miller, PhD, Associate Dean of Research, RSPH, HERCULES Director

Carmen Marsit, PhD, Professor, Environmental Health, RSPH

Miriam Vos, MD, Associate Professor, SOM

Tom Ziegler, MD, Professor, SOM

Join us for presentations by lead investigators from Emory's NIEHS P30 Core Center Grant, [HERCULES](#) (Human & Exposome Research Center: Understanding Lifetime Exposures). Drs. Miller, Marsit, Vos, and Ziegler will explain the concept of the exposome, describe examples of current research on the environment and human health, and detail opportunities available to researchers, including HERCULES pilot funding and clinical/population resources. After presentations, there will be time for networking.

Friday, May 19, 2017

12:00 – 1:30 P.M.

Egleston Hospital, Classrooms 5-7

**Lunch will be served**

RSVP at [pedsresearch.org](http://pedsresearch.org)
