Learning Objectives

Following the education, the learners will be able to:

- Describe how social neuroscience can inform how we design lesson plans to foster student engagement in our classrooms.
- Identify three essential instructional domains that contribute to a positive learning environment.
- Describe the results of pilot data in school districts around the state of Georgia on student engagement in the classroom.
- Describe how the Marcus Educational Outreach Program supports the internal capacity of school districts to foster social and emotional development in all students.

RSVP: A light lunch will be provided to those who RSVP by noon on Thursday, June 23. Contact Sara Gunter at 404-785-7833 or sara.gunter@choa.org.
